

Office of the Village Manager

MEMORANDUM

To: Honorable Mayor & Members of the Village Council
Thru: Howard W. Brown, Jr., Village Manager *HMB*
From: Daniel W. Eick, Management Analyst *D. W. E*
CC: Village Staff
Date: March 18, 2020
Re: Bi-Monthly Report and Update (For week ending in Saturday, March 21, 2020)

In the interest of keeping you informed of administrative matters on a frequent basis, I am providing this report for your review and consideration:

Village Manager's Office

Village Schedule

Due to health risks related to the outbreak of COVID-19 several changes have been made to the upcoming events schedule:

- On Monday, March 16, 2020 an email was sent out to all council members detailing the village's response to COVID-19. Further information regarding that response, and general information, can be found below.
- Additionally, on **Thursday, March 19, 2020** staff have scheduled a meeting with the intention of requesting council to declare a local state of emergency. This is a necessary step to improve our public health response currently.
- The Census 2020 public engagement and block party events have been cancelled. This includes all public events related to the Census and the surrounding outreach. Additional information will be supplied in the future should alternate events be required. Further documentation is included below.
- Village Manager Brown had a one on one meeting with Jeff Leslie, owner of the Indiantown Water Company, on Tuesday, March 17, 2020. The purpose of the meeting was to discuss transitional items including operational and billing agreements with the Village.
- Martin County's annual tire recycle mania is upcoming. The event is hosted by Martin County Mosquito Control on a yearly basis. Currently, several events are scheduled throughout the months of April and May. Further documentation is included below. Please contact village staff with questions.

Finally, it should be noted while not all meetings or announcements necessitate Council action, all questions from the public are welcome. For further information please contact Management Analyst Daniel Eick at deick@indiantownfl.gov.

Important Information

Initially, Village Hall had scheduled several essential staff trainings for the months of April and May 2020. However, due to ongoing health concerns, it may be necessary to cancel such meetings. Further information is forthcoming.

On Tuesday, March 17, 2020 Village Staff were contacted by FPL who informed us they plan to desist all service disconnections until the end of March to support people struggling with health concerns.

Additionally, the Indiantown branch of the Martin County Clerk of Court's Office is closed indefinitely due to health concerns. Should anyone from Indiantown require Martin County services they will need to go to the appropriate location in Stuart. The official office of the Martin County Clerk of Court and Comptroller is located at 100 SE Ocean blvd, Stuart, FL 34994.

Village staff continue working to show support/solidarity regarding alterations of the design of State Route 710. Management Analyst Daniel Eick attended a meeting on Wednesday, March 11, 2020 at the Elisabeth Lahti Library regarding this topic. An update for Council is scheduled for the next Regular Council Meeting on Thursday, March 26, 2020.

During Regular Meeting on Thursday, March 12, 2020 Council requested Staff collect information on the amount of Indiantown's Solid Waste franchise fee currently payed to Martin County. Village Staff have placed several written and verbal requests for the information and have yet to receive a response. Additionally, Council requested staff investigate the possibility of performing a citizen survey. Staff are researching this matter and expect to have a response on or before April 30, 2020, with a recommendation to Council for the FY 2020-2021 budget.

Finally, as you may be aware, the Florida League of Cities is currently running a Readers 2 Leaders initiative designed to introduce children (aged 4 – 8) to government services. The FLC proposes elected officials read in classrooms to teach in a fun and constructive manner. Staff are prepared to assist with this initiative but are waiting on delivery of the books in question. If you have further questions, please contact Management Analyst Daniel Eick at deick@indiantownfl.gov.

Village Clerk's Office

Human Resources

As previously mentioned, several positions are in development at Village Hall:

- As of Monday, March 23, 2020 Village Hall will have a new Office Coordinator and two new Permit Technicians. Hiring two Permit Technicians, allows our building permit division to open from 8:00 a.m. to 5:00 p.m., Monday – Thursday with adequate backup services for the reception counter.
- Village Hall has opened recruitment for the Community & Economic Development Director position. Proposals are due by Thursday, April 2, 2020.

Procurement Matters

- The Village's fire & EMS pre-bid conference & site inspection was held on Monday, March 16, 2020. Considering ongoing health risks however, Village Manager Brown has opted to waive mandatory attendance requirements associated with such meetings. Interested companies are encouraged to continue applying and the Village will respond accordingly. Proposals for this opportunity are due by Thursday, April 2, 2020.

Election Results

The Village Manager and Clerk feel it is important to update everyone on the outcome of the Election held on Tuesday, March 17, 2020. That information is posted below:

- Question #1: Clarifying Council Election Procedures, Passed 83.30% (384 yes votes) to 16.70% (77 no votes).
- Question #2: Concerning Village Personnel Policies, Failed 42.60% (193 yes votes) to 57.40% (260 no votes).

Emergency Management Matters

Staff continue to monitor the Coronavirus situation and are actively participating in the Martin County Emergency Management and other agency conference calls.

Additionally, staff have updated the Village Website with a wealth of information and resources regarding the Coronavirus situation. Please visit: <https://www.indiantownfl.gov/community/page/coronavirus-covid-19-information-click-here-stay-informed>

Records Matters

Staff is working diligently to complete the backlog of Council meeting minutes. The community can expect to see minutes from a couple of recent meetings, as well as a couple older meetings, on the next agenda.

Code Compliance Department

Improvements are ongoing alongside training of our new code compliance officer Robert Perez. These improvements include:

- The establishment of a nuisance abatement program to help with cleanup and compliance throughout the Village.
- Updates and preparation of our NOH documentation which is expected to be completed and available by Tuesday, April 14, 2020.
- And the continued work to remove/resolve illegal signage and snipe signs throughout the Village.

Additionally, inspection and improvements continue at pace. As of now, much of the work is limited to neighborhood roadside inspections. However, such inspections have resulted in a numerous amount of citations. Village staff will update with further information on specific amounts, and the next magistrate hearing, when the information becomes available.

Building & Permits Department

The Building & Permit office continues to host extended hours Monday – Thursday 8:00 AM to 6:00 PM. Village Hall hopes the extended hours will provide better service to the Village as a whole.

In support of this, several improvements are in the works:

- Staff are working to bring contractor license and insurance information up to date. This is necessary to ensure continued operation of contractors within the village as seamlessly as possible.
- The website and various village resources are being updated with additional forms, such as right of way and special use permits, as we come into and design them.
- The building department is actively working with the code compliance department to increase the literacy of Village staff in the magistrate and payment processes associated with citations.
- Finally, staff are working to update our permitting systems to better track expiry notifications and contact citizens in advance of closing.

If you have further questions, please feel free to contact permit.tech@indiantownfl.gov.

Finance Department

The Finance department is focused on the FY 18 – 19 audit. Mauldin & Jenkins, the Contractor hired to provide this service, is currently working on several projects. The Finance Department would like to note that, due to health concerns surrounding the COVID-19 outbreak, some of these items may be subject to change.

- Complete the audit in full and bring to a close on or before March 31st. Meetings between Finance, the Contractor, and Village Manager Brown are ongoing.
- Perform a CAFR on said audit and ensure our qualification for the GFOA award. This item also has an expected completion date of March 31st.
- Finalization of the Village's audit portal. The portal is currently up and running in testing phases. The Office Coordinator is working with the Finance department to upload information and ensure integrity. Further information forthcoming soon.

Finally, the February financial update to Council is currently scheduled for Thursday, March 26, 2020.

Parks and Recreation Department

Improvements across all Village parks are maintaining pace. That said, several updates have proven more substantial and should be highlighted here:

- Staff have contacted Fireworks companies requesting proposals for the July fireworks show and confirmed our supplier. Parks and Recreation will continue to coordinate with the vendor and Report to the Village Council where necessary.
- Parks Superintendent Albie Scoggins attended the 3rd Indiantown Sports User Group Meeting to discuss parks, field scheduling, and other topics of concern to residents.
- Implementation of fertilizer and weed spraying programs at Big Mound Park, Field E, and the Booker Park Fire Station is ongoing with Southern Aerification and Turf.
- Improvements, repairs, and tests of the irrigation systems at Big Mound Park are ongoing alongside Sullivan Electric and Pump.
- Parks Superintendent Albie Scoggins has scheduled a meeting with Brightview to discuss the Village's maintenance contract at our various park facilities

Planning and Development Department

The Village of Indiantown Comprehensive Plan is now in effect and is available for viewing on the Village website. The Village is also governed by the transitional Land Development Regulations (LDR's) and now has one year to develop new ones moving forward. Calvin Giordano and Associates (CGA) has begun this process and is working with staff to coordinate the process. They have completed a series of public meetings to gather public input on the regulations and process.

Village Planning Department staff are reviewing a proposed de-annexation from a portion of the Little Ranch neighborhood within the Village's boundaries with the Legal Department. The neighborhood originally elected, via vote, to self-exclude from incorporation back in 2017. Staff expects to complete its analysis and present an agenda item to Council on Thursday, April 9, 2020.

Finally, the Planning Department is developing a defined process for annexation. Staff expect the draft ordinance and process to be available early April.

Public Works and Engineering Department

The Village's Public Works Director, William Archebelle, has several items to highlight:

- FEMA grant repayment for the Civic Center Shelter Study is finalized in the amount of \$9,700. The check was sent out on Thursday, March 5, 2020 and has already cleared.
- Final documentation for the FDOT Saturday Bus Grant is in process. Service is anticipated to begin Saturday, April 4, 2020. Further documentation is included below.
- Public Works Director William Archebelle has met with contractors to address potholes throughout the Village. Several locations are expecting substantial repairs to mitigate further pothole development in the future. Further information is forthcoming.
- Village staff are in the process of wrapping up the revised CDBG project scope and mapping with Fred Fox Enterprises. An update on final project scope and scale is expected soon.
- Finally, Microsurfacing for zones 1 and 3 in on track to be completed before the end of March with zones 2 and 4 in final preparatory stages.

What is coronavirus disease 2019 (COVID-19)?

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

Can people in the U.S. get COVID-19?

COVID-19 is spreading from person to person in China, and limited spread among close contacts has been detected in some countries outside China, including the United States. At this time, however, this virus is NOT currently spreading in communities in the United States. Right now, the greatest risk of infection is for people in China or people who have traveled to China. Risk of infection is dependent on exposure. Close contacts of people who are infected are at greater risk of exposure, for example health care workers and close contacts of people who are infected with the virus that causes COVID-19. CDC continues to closely monitor the situation.

Have there been cases of COVID-19 in the U.S.?

Yes. The first case of COVID-19 in the United States was reported on January 21, 2020. The current count of cases of COVID-19 in the United States is available on CDC's webpage at <https://www.cdc.gov/coronavirus/2019-ncov/cases-in-us.html>.

How does COVID-19 spread?

The virus that causes COVID-19 probably emerged from an animal source, but now it seems to be spreading from person to person. It's important to note that person-to-person spread can happen on a continuum. Some diseases are highly contagious (like measles), while other diseases are less so. At this time, it's unclear how easily or sustainably the virus that causes COVID-19 is spreading between people. Learn what is known about the spread of newly emerged coronaviruses at <https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html>.

What are the symptoms of COVID-19?

Patients with COVID-19 have had mild to severe respiratory illness with symptoms of

- fever
- cough
- shortness of breath

What are severe complications from this virus?

Many patients have pneumonia in both lungs.

How can I help protect myself?

The best way to prevent infection is to avoid being exposed to the virus that causes COVID-19.

There are simple everyday preventive actions to help prevent the spread of respiratory viruses. These include

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Wash your hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.

If you are sick, to keep from spreading respiratory illness to others, you should

- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

What should I do if I recently traveled to China and got sick?

If you were in China within the past 14 days and feel sick with fever, cough, or difficulty breathing, you should seek medical care. Call the office of your health care provider before you go, and tell them about your travel and your symptoms. They will give you instructions on how to get care without exposing other people to your illness. While sick, avoid contact with people, don't go out and delay any travel to reduce the possibility of spreading illness to others.

Is there a vaccine?

There is currently no vaccine to protect against COVID-19. The best way to prevent infection is to avoid being exposed to the virus that causes COVID-19.

Is there a treatment?

There is no specific antiviral treatment for COVID-19. People with COVID-19 can seek medical care to help relieve symptoms.

Prevent COVID-19 —it's in your hands!

FloridaHealth.gov

Wash your hands often with soap and water. If you don't have soap and water, use a hand sanitizer that is at least 60% alcohol based.

Clean and disinfect frequently touched surfaces.

Stay home when you're sick, and keep your children home when they're sick.

Cover your mouth and nose with a tissue when you cough or sneeze. If you don't have a tissue, cough or sneeze into your upper sleeve or elbow, not your hands.

Try not to touch your face with unwashed hands.

Don't touch or shake hands with people who are sick.

¿Qué es la enfermedad del coronavirus 2019 (COVID-19)?

La enfermedad del coronavirus 2019 (COVID-19) es una afección respiratoria que se puede propagar de persona a persona. El virus que causa el COVID-19 es un nuevo coronavirus que se identificó por primera vez durante la investigación de un brote en Wuhan, China.

¿Pueden las personas en los EE. UU. contraer el COVID-19?

El COVID-19 se está propagando de persona a persona en China y se ha detectado propagación limitada entre contactos cercanos en algunos países fuera de China, incluso en los Estados Unidos. En la actualidad, sin embargo, este virus NO se está propagando en comunidades en los Estados Unidos. En estos momentos, el mayor riesgo de infección es para las personas en China o las personas que han viajado a China. El riesgo de infección depende de la exposición. Los contactos cercanos de las personas infectadas tienen un riesgo mayor de exposición, por ejemplo, los trabajadores del sector de la salud y los contactos cercanos de las personas infectadas por el virus que causa el COVID-19. Los CDC continúan vigilando de cerca la situación.

¿Ha habido casos de COVID-19 en los EE. UU.?

Sí. El primer caso de COVID-19 en los Estados Unidos se notificó el 21 de enero del 2020. La cantidad actual de casos de COVID-19 en los Estados Unidos está disponible en la página web de los CDC en <https://www.cdc.gov/coronavirus/2019-ncov/cases-in-us.html>.

¿Cómo se propaga el COVID-19?

Es probable que el virus que causa el COVID-19 haya surgido de una fuente animal, pero parece que ahora se está propagando de persona a persona. Es importante notar que la propagación de persona a persona puede darse en un proceso continuo. Algunas enfermedades son altamente contagiosas (como el sarampión), mientras que otras enfermedades no lo son tanto. En estos momentos, no está claro qué tan fácil o con qué continuidad el virus que causa el COVID-19 se esté propagando entre las personas. Infórmese sobre lo que se sabe acerca de la propagación del coronavirus de reciente aparición en <https://www.cdc.gov/coronavirus/2019-ncov/about/transmission-sp.html>.

¿Cuáles son los síntomas del COVID-19?

Los pacientes con COVID-19 han tenido enfermedad respiratoria de leve a grave con los siguientes síntomas:

- fiebre
- tos
- dificultad para respirar

¿Cuáles son las complicaciones graves provocadas por este virus?

Muchos pacientes tienen neumonía en ambos pulmones.

¿Qué puedo hacer para ayudar a protegerme?

La mejor manera de prevenir la infección es evitar la exposición al virus que causa el COVID-19.

Hay medidas simples preventivas y cotidianas para ayudar a prevenir la propagación de virus respiratorios. Estas incluyen las siguientes:

- Evitar el contacto cercano con personas enfermas.
- Evitar tocarse los ojos, la nariz y la boca con las manos sin lavar.
- Lavarse frecuentemente las manos con agua y jabón por al menos 20 segundos. Usar un desinfectante de manos que contenga al menos un 60 % de alcohol si no hay agua y jabón disponibles.
- Si está enfermo, para prevenir la propagación de la enfermedad respiratoria a los demás, debería hacer lo siguiente:
 - Quedarse en casa si está enfermo.
 - Cubrirse la nariz y la boca con un pañuelo desechable al toser o estornudar y luego botarlo a la basura.
 - Limpiar y desinfectar los objetos y las superficies que se tocan frecuentemente.

¿Qué debo hacer si recientemente viajé a China y me enfermé?

Si estuvo en China en los últimos 14 días, se siente enfermo y tiene fiebre, tos o dificultad para respirar, debería buscar atención médica. Llame al consultorio de su proveedor de atención médica antes de ir y dígalos sobre su viaje y sus síntomas. Ellos le darán instrucciones sobre cómo conseguir atención médica sin exponer a los demás a su enfermedad. Mientras esté enfermo, evite el contacto con otras personas, no salga y postergue cualquier viaje para reducir la posibilidad de propagar la enfermedad a los demás.

¿Hay alguna vacuna?

En la actualidad no existe una vacuna que proteja contra el COVID-19. La mejor manera de prevenir la infección es evitar la exposición al virus que causa el COVID-19.

¿Existe un tratamiento?

No hay un tratamiento antiviral específico para el COVID-19. Las personas con el COVID-19 pueden buscar atención médica para ayudar a aliviar los síntomas.

¡Prevenir ENFERMEDADES RESPIRATORIAS —está en sus manos!

FloridaHealth.gov

Lávese las manos frecuentemente con agua y jabón. Si no tiene agua y jabón, use un desinfectante de manos con un mínimo de 60% de base de alcohol.

Limpie y desinfecte con frecuencia las superficies que toca.

Quédese en su casa cuando esté enfermo y haga lo mismo con sus hijos cuando estén enfermos.

Cúbrase la boca y la nariz con un pañuelo de papel cuando tosa o estornude. Si no tiene un pañuelo de papel, tosa o estornude en la parte superior de la manga o el codo, no en las manos.

Intente no tocarse la cara con las manos sin lavar.

No toque a personas enfermas ni se dé la mano con ellas.

COVID-19

General Prevention

Florida Department of Health • FloridaHealth.gov • tinyurl.com/FLcdcprevention

Protect yourself from all infectious diseases by using these precautions.

Stay home when you are sick

Avoid contact with people who are sick

Get adequate sleep and eat well-balanced meals

Wash hands often with soap and water – 20 seconds or longer

Dry hands with a clean towel or air dry your hands

Avoid touching your eyes, nose, or mouth with unwashed hands or after touching surfaces

Cover your mouth with a tissue or sleeve when coughing or sneezing

Clean and disinfect “high touch” surfaces often

Call before visiting your doctor

Clean all “high-touch” surfaces every day.

High touch surfaces include counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tables, and bedside tables. Also, clean any surfaces that may have blood, stool, or body fluids on them. Use a household cleaning spray or wipe according to the label instructions. Labels contain instructions for safe and effective use of the cleaning product including precautions you should take when applying the product, such as wearing gloves and making sure you have good ventilation during use of the product.

COVID-19

Protect Yourself in Gatherings & Crowds

Florida Department of Health • FloridaHealth.gov

Public health authorities suggest the cancellation of gatherings greater than 250 people and smaller gatherings that may bring people from multiple areas in the U.S. Gatherings and crowds also exist in other places—like work or stores—so know what to do.

Know How to Protect Yourself in a Crowd

Keep Your Hands Clean

Wash your hands often with soap and water for at least 20 seconds. Throw used paper towels in the trash.

- Wash after going to the bathroom, before eating, and after blowing your nose, coughing or sneezing.
- Wash after you touch someone.

If you don't have soap and water, use a 60% or more alcohol-based hand sanitizer.

Cough and sneeze into your bent elbow or a tissue. Throw used tissues in the trash.

Keep at Least 6 Feet Between You and Other People

6 FEET

Limit interactions:

- Avoid shopping at peak hours and take advantage of delivery or pick-up services.
- Avoid public transit.
- Avoid areas with active outbreaks.
- Ask your employer if you can telecommute.
- Don't shake hands as a social greeting.

Limit interactions if you are 65 or older and have underlying or chronic health conditions: compromised immunity, diabetes or heart or lung disease.

Know When to Protect the Crowd

Avoid Leaving Home If You:

- Have been in contact with someone who has or may have COVID-19.
- Have traveled internationally to places under level 3 advisories or visited an area with widespread COVID-19 transmission within the last 14 days.
- Have been exposed to someone with respiratory illness within the last 14 days.
- Currently have fever, cough or a sore throat.

Screening for COVID-19

FloridaHealth.gov/COVID-19 • Florida Department of Health

Are you experiencing symptoms?

Symptoms may appear in 2–14 days after exposure to the virus.

1

FEVER

COUGH

SHORTNESS OF BREATH

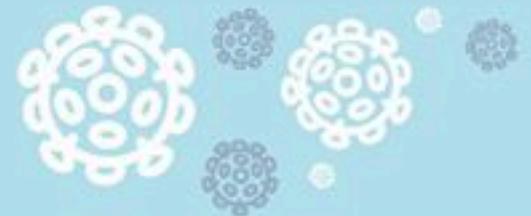

2

Have you returned from international travel or been on a cruise within the last 14 days?

3

Have you been around someone diagnosed with COVID-19?

If you answered “yes” to any of the above questions, call your health care provider or your county health department (CHD) by scanning the code for the local CHD finder. Or call 1-866-779-6121.

Guidance

- Self monitor for fever, cough, or other respiratory symptoms for 14 days.
- Avoid contact with sick people.
- Delay any additional travel plans until no longer sick.
- Wash hands often with soap and water for at least 20 seconds.
- Cover mouth and nose with a tissue or sleeve when coughing or sneezing. Throw the tissue in the trash.

Evaluando para COVID-19

FloridaHealth.gov/COVID-19 • Departamento de Salud de la Florida

1

Tiene síntomas?

Síntomas pueden manifestarse entre 2-14 días después de haber sido expuesto al virus.

FIEBRE

TOS

DIFICULTAD PARA RESPIRAR

2

¿Ha regresado de un viaje internacional o estado en un crucero en los pasados 14 días?

3

¿Ha estado cerca de alguna persona diagnosticada con COVID-19?

Si su respuesta es “sí” a cualquiera de éstas preguntas, llame a su doctor, o al Departamento de Salud de la Florida en el Condado de Volusia al (386) 274-0634 antes de visitar cualquier centro de salud.

Recomendaciones preventivas

- Vigile su salud por fiebre, tos, u otros síntomas respiratorios por 14 días.
- Evite contacto con personas enfermas.
- Retrasar planes de viaje hasta que no esté enfermo.
- Lávese las manos frecuentemente con agua y jabón por al menos 20 segundos.
- Cubrirse la boca y la nariz con un pañuelo desechable al toser o estornudar y luego botarlos a la basura.

COVID-19

Should I Get Tested?

Florida Department of Health • FloridaHealth.gov

If you have returned from **ANY** international travel or a cruise within the last 14 days and you're sick,
OR

if you have been in close contact with someone who has recently returned from international travel or a cruise and is sick:

- **CALL** your health care provider or county health department (CHD).
- **SCAN** the code for the CHD finder.

The Centers for Disease Control and Prevention recommends self-isolation and social distancing for 14 days for all individuals who have traveled internationally.

Symptoms

The most common symptoms of COVID-19 are **fever, cough and shortness of breath**. Some patients have aches and pains, nasal congestion, runny nose, sore throat or diarrhea.

These symptoms are usually mild and begin gradually. Some people become infected but don't develop any symptoms and don't feel unwell. Most people recover from the disease without needing special treatment.

Learn more:

tinyurl.com/FLcdcprevention
tinyurl.com/FLcovidsick

If your travel history has not put you at risk, take note:

If you have been in close contact with someone who may have or had COVID-19, and you have symptoms of fever, cough or shortness of breath, or you have an underlying medical condition like diabetes or heart disease, or you a history of cancer.

Call, do not visit, your CHD or health care provider.

It's **IMPORTANT** to call ahead before visiting your CHD or health care provider. Offices must take proper steps to avoid further spread of COVID-19 when a concerned patient arrives for a medical appointment.

How testing is done.

A person who is tested will have three specimens taken: oral, nasal and saliva. Samples will be given to the CHD and from there, shipped or deliver to the closest laboratory. Test results are available within 24–48 hours.

What if I test positive for COVID-19?

- Stay home except to get medical care.
- Separate yourself from other people and animals in your home.
- Call ahead before visiting your doctor.
- Wear a facemask when around others.
- Cover your coughs and sneezes
- Clean your hands often
- Avoid sharing personal household items
- Clean all "high-touch" surfaces everyday
